ABOUT

Data Analyst & BI Specialist with four years of experience **developing and maintaining Power BI dashboards and ensuring data quality, consistency, and integrity across reporting solutions with clear communication**. Reduced manual reporting by 30+ hours/week and improved data accuracy by up to 40% using **Power BI, SQL, Python, and Advanced Excel**. Skilled in AI-assisted analytics with direct experience in supply chain, logistics, and finance roles, using strong communication to improve decision-making and optimise processes.

SKILLS & INTERESTS

Analytics & BI Stack: **Power BI** (DAX, Data Modelling, Power Query) - **SQL** (MySQL, SQL Server, CTEs, Window Functions) - **Python** (Pandas, NumPy, PySpark) - **Tableau** - **Statistics & EDA** - **KPI Design & Dashboarding** - **Advanced Excel** (PivotTables, Power Query, VBA) - **ETL Processes** - Data Quality & Validation

Cloud & Tools: **AWS** (EC2, S3, RDS Fundamentals) - **Snowflake** - **SharePoint** - **Jira** - **Agile/Scrum** - **Visio** - **R & R Markdown** - **Microsoft Fabric** - **Azure Data Factory**

Process Improvement: **Workflow Automation** - **Power Automate** - **Data Warehousing** - **Data Governance** - **Data Dictionaries** - **Data Transformation** - **Data Loading** - **Data Quality & Validation**

WORK EXPERIENCE

Best Buy Vaughan, ON
Computer Solutions Specialist Oct 2025 - Present

- Tracked daily **service KPIs in Power BI**, identifying recurring technical issues and feedback trends that informed team process improvements
- Resolved **100+ daily technical cases across hardware, software, and OS environments**, maintaining high first-contact resolution under fast-paced, high-volume conditions
- Diagnosed customer technical and product needs across 10+ categories, **recommending tailored solutions and service plans to drive sales while ensuring clear, jargon-free communication**

Newrest Mississauga, ON
Production IT Support Specialist Apr 2024 - Sep 2025

- Reduced manual reporting effort by 35% by **building and designing automated KPI dashboards in Power BI and Excel with DAX measures, Power Query**, and conditional formatting to track production output across all SKUs
- Improved **data quality and anomaly detection by 25%** by standardizing data entry workflows and building **validation rules** into production floor reporting systems, ensuring consistent and accurate inputs across cross-functional teams.
- Maintained **SLA compliance** by triaging and resolving Tier 1 IT support tickets through structured root-cause analysis, minimizing production downtime in a fast-paced, high-volume environment.

Meticulousorbit technologies Pvt Ltd India
Database Analysis and BI Dashboard Mar 2023 - Aug 2023

- Designed and optimized Power BI dashboards tracking compliance and security metrics for leadership, **eliminating ~6 hours/week of manual reporting through automated data refresh**.
- Developed DAX measures and KPI visualizations that **improved cybersecurity reporting accuracy by 35%**, enabling faster risk assessment and compliance decisions.

Apnahome Ltd London, The UK
Data Analyst Dec 2021 - Feb 2023

- Built and automated **KPI dashboards in Microsoft Power BI and Excel** to track monthly revenue and sales performance, **reducing manual reporting time by 30 hours per week**, directly applicable to sales forecasting and commercial performance analysis.
- Developed SKU-level **pricing models that increased cost assessment accuracy by 40%**, supporting commercial decision-making
- Performed SKU trend analysis using Python-based clustering models, identifying high-performing product combinations that **contributed to a 15% sales uplift**, supporting sales forecasting and commercial performance analysis.

PROJECT EXPERIENCE

Amazon Seller Excel Workbook with Macro
Excel Automation Developer

- Built **Excel automation macros to consolidate SKU data from 5+ vendor sources** into a standardised format, reducing manual data prep time and improving inventory tracking accuracy.

- Automated sorting, filtering, and calculations via one-click macros, **accelerating workflows by 40%**, aligned with process improvement and efficiency goals.

Business Insights Using MySQL with Python EDA

Data Analyst (Python/MySQL Project)

- **Cleaned and joined transactional and operational datasets using MySQL and Python (Pandas, NumPy)**, reducing reporting errors by 20% and enabling more reliable business performance insights.
- Automated daily analytics reports using **MySQL triggers and indexes, saving 4 hours per week**

Telecom Providers Business Insights

Data Analyst (PowerBI Project)

- Engineered **advanced DAX measures (YoY Growth, 12-month Rolling Average, Variance Analysis)** with drill-through capabilities, accelerating C-level decision-making by 35%.
- Automated dashboard refresh cycles **increased operational efficiency by 25%** and ensured stakeholders had access to up-to-date information with minimal manual intervention.

EDUCATION

Sheridan College

Mississauga, ON, Canada

Ontario College Graduate Certificate in Computer Programming in Python

University of Essex

Colchester, United Kingdom

MSc Applied Data Science and Analysis

Gujarat Technological University

Ahmedabad, India

Bachelor's in Computer Engineering
